CAREER OBJECTIVE

As a passionate and dedicated Python Full Stack Developer, I aim to build a successful career in software development by designing and implementing scalable, efficient, and user-friendly web applications. With strong skills in Python, Django, HTML, CSS, JavaScript, and database management systems, I strive to bridge the gap between front-end and back-end development, ensuring seamless integration and performance. I am eager to work in a collaborative environment where I can continuously learn new technologies, solve real-world problems, and contribute to the success and growth of the organization through innovation and technical excellence.

EDUCATION
